Reference: PCP

MAY 18 1956

Mr. F. Moran McConihe
Commissioner
Public Buildings Service
General Services Administration
Washington 25, D. C.

Dear Mr. McConihe:

We have reviewed the enclosed professional services contract which was referred to us by Mr. Foss under covering letter dated May 10, 1956, and, with the exception of Article I "Project" in the second paragraph under the title "DESCRIPTION," find it to be satisfactory. It is requested that this paragraph be changed to read:

> "This project must also include a complete steam generating plant for heating and other requirements; a garage building of approximately 23,000 square feet net assignable space for storage and servicing Agency vehicles; a site development for the approximately 140 acres including access and site roads, sidewalks, parking area for 4,000 cars, lighting and fencing; and all utilities necessary for the operation and proper function of the entire project; and landscaping."

With the incorporation of this amendment the contract will be acceptable and this letter may be accepted as our concurrence. Since the transfer of funds from the Central Intelligence Agency to the General Services Administration was completed May 11, 1956, under the authority contained in 64 Stat. 582 [40 USC 490 (c)], the contract may be executed by the Public Buildings Service and Harrison and Abramovitz without further formal referral to this Agency.

STATINTL

Sincerely,

Distribution:
